

INSTALL VISUAL STUDIO CODE ON WINDOWS

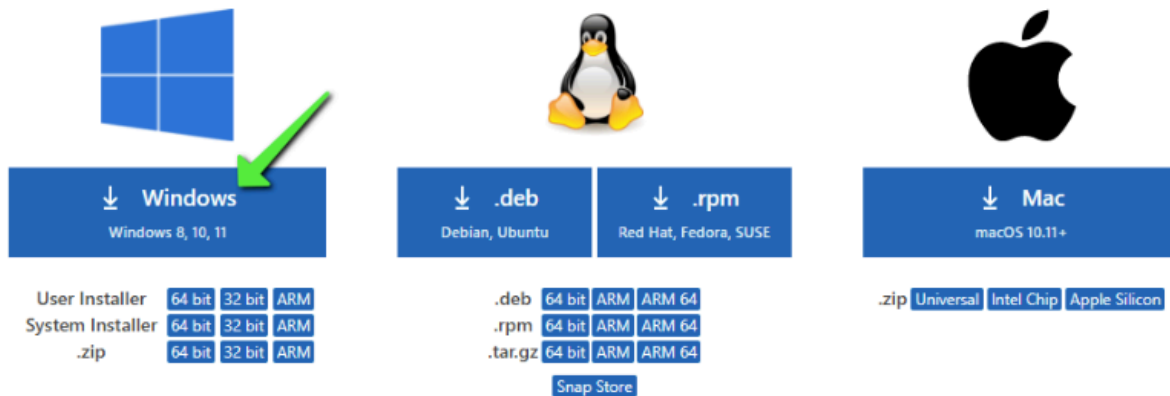

Step 1: Visit the [Official Website](#) of the Visual Studio Code using any web browser like Google Chrome, Microsoft Edge, etc.

Step 2: To download the Visual Studio Code application for Windows, click on the "Download for Windows" button available on the official Visual Studio Code website.

Download Visual Studio Code

Free and built on open source. Integrated Git, debugging and extensions.

Step 3: After the download completes, the Visual Studio Code icon will be located in your downloads folder.

Step 4: To begin installing Visual Studio Code, locate and click on the Installer icon that was downloaded.

Step 5: Once the installer launches, you'll be prompted to review and agree to the software's terms and conditions. Select "I accept the agreement" and proceed by clicking the "Next" button.

License Agreement

Please read the following important information before continuing.

Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.

This license applies to the Visual Studio Code product. Source Code for Visual Studio Code is available at <https://github.com/Microsoft/vscode> under the MIT license agreement at <https://github.com/microsoft/vscode/blob/main/LICENSE.txt>.
